

Keep in touch with your partner before games

When you receive a playoff game from Boces as well as your regular scheduled games, make sure you call the school and your partner. Exchange your cell phone number with your partner so if something happens, you can contact your partner. If your partner is late to the scheduled match, do the professional thing and wait 15-minutes after game time before starting the contest alone. With all the construction on the highways and traffic conditions, anyone of us can get caught in it and be late for a game. Hopefully everyone will leave themselves enough time to get to their games on time so this will not happen.
